December 28, 2001

Sir:

Prior to continued examination on the merits, please amend the above-identified application  
as follows:

**IN THE CLAIMS:**

**Please cancel claims 1-6 without prejudice or disclaimer.**

**Please amend claim 7 as follows:**

7. (Amended) A process for electroplating a work having a hole communicating with the outside, using an electroplating device comprising an anode which is inserted through and disposed in a hole provided in the work and communicating with the outside, a member for rotating said work about its center axis and supplying a plating electric current to said work.

**Please add new claims 11-13 as follows:**

11. (New) A process for electroplating a work having a hole communicating with the outside, using an electroplating device comprising an anode which is inserted through and disposed in a hole provided in the work and communicating with the outside, a member for rotating said work about its center axis, and a member for supplying a plating electric current to said work.

12. (New) A process for electroplating a work according to claim 11, wherein said work having the hole communicating with the outside is a ring-shaped work.

13. (New) A process for electroplating a work according to claim 12, wherein said ring-shaped work is a ring-shaped bonded magnet.

**REMARKS**

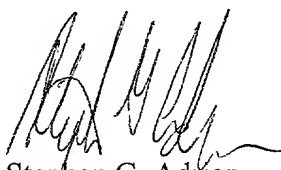

Claims 7-13 are pending. Claim 7 is amended and new claims 11-13 are added. A marked-up version showing the changes to claim 7 made by the present amendment is attached hereto as **“Version with markings to show changes made.”**

Prompt and favorable action is earnestly solicited.
